

Week Review

Previous Week Date: _____

What was my best win or success for the past week?

What worked easily?

What did people connect with?

What is feeling overwhelming or what was unsuccessful?

When did I feel like I was most in my flow?

What's something someone else is using to attract clients? How are they having success with it? Can I spin off from it (make it my own somehow)?

My Plan for This Week

This Week Date: _____

What's the one thing I want to focus on? My highest priority:

What am I focused on selling right now? How can I promote it today?

What trends am I noticing? What are people asking for? Do I need to change something about my business to adapt to what people are wanting?

What am I getting intuitions about doing? Can I get it done today somehow??? Is it a priority? Can I have someone else do it?

What's something I would love to do (not necessarily business related, could be self-care, vacation, reading a new book...):
